

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

LLOYD'S REGISTER
OF
BRITISH AND FOREIGN
SHIPPING.

FROM 1ST JULY, 1872, TO THE 30TH JUNE, 1873.

ESTABLISHED 1834.

LONDON:
WYMAN AND SONS, PRINTERS, 74 & 75, GREAT QUEEN STREET,
LINCOLN'S-INN FIELDS.

1872.

Republished 1964 by
The Gregg Press Limited
27 Palace Street, London S.W.1.
Printed in Holland

KEY TO THE REGISTER.

The Stores of Vessels are designated by the Figures 1 and 2:—

1. Signifying that the Vessel is well and sufficiently found.
2. That she is deficient in either quantity or quality.

Vessels **RESTORED** to, or **CONTINUED** on the Character A, will have the number of Years for which they are Restored or Continued, with the name of the Port of Survey, inserted separately under the number originally assigned, in the Eleventh Column; thus—Rest. Lon. 70-5 yrs, or Cont. Liv. 70-3 yrs. Where the term in the case of continuation has expired, the Letter "C" only will be placed before the figure denoting the number of Years for which Continuation had been allowed.

The Port where a vessel has been either Specially Surveyed, Continued, or Restored, is mentioned in the same column as the fact and date of such Special Surveys.

British North American built vessels, opened as required by the Rules, Section 68, will be marked in the Register "S.S." with the number of years that may elapse before they are again opened, and the year of survey; thus—"S.S.Cly.70-4yrs—"

Vessels marked "S.S." with a date, *in red*, denote that they have been surveyed at that time in accordance with the *second Clause* of the Rules, Section 60; thus—"S.S.Sid.70-5yrs" (in red ink).

The mark [B.S.] denotes that the vessel is classed subject to *Biennial Survey*. The mark [Exp. B.S.] denotes that the vessel is built *Experimentally*, and classed subject to *Biennial Survey*. (See Section 31.)

The mark *t.s.* with a date, denotes that the vessel has been submitted to Triennial Survey as prescribed by Rules for Iron Ships, thus, *t.s.69*. (See page 63).

The marks *s.s.Nwc.No.1-70* — *s.s.Hul.No.2-70* — *s.s.Lon.No.3-70* denote that the vessels have been submitted to periodical surveys, as prescribed by Rules for Iron Ships, pages 49 and 81.

The figures in the Eleventh column, to vessels in the *A* class, imply that they were originally classed *A*, for that number of Years. The cipher 0 in this Column indicates that (from inferior construction) there were no "number of Years first assigned."

The broad **A** signifies that the Vessel is built of Iron.

The note * prefixed to **A**, thus—***A**, signifies that the Vessel has been built with heavier plating than the Rules now require.

Ships built under Special Survey will be shown by a Cross, thus **✕**. (See Section 28.)

KEY TO THE REGISTER—*continued.*

In the Twelfth Column.

The character A denotes New Ships, or ships Continued, or Restored. (*Vide* Sections 34, and 54 to 59 of the Rules.)

The character A, in Red, denotes ships which have passed the period assigned on the original Survey, or Continuation, or Restoration, and ships, not having had an original character, provided they are found on survey of superior description, fit for the conveyance of dry and perishable goods, *to and from all parts of the world.* (*Vide* Section 60 of the Rules.)

The character K denotes ships which have been found on Survey fit for the safe conveyance of dry and perishable goods on *shorter voyages.* (*Vide* Section 61 of the Rules.)

The character E denotes ships which have been found on Survey fit for the conveyance of cargoes not in their nature subject to sea damage *on any voyage.* (*Vide* Section 64 of the Rules.)

The character I denotes ships which have been found fit to carry cargoes not liable to sea damage on *shorter voyages.* (*Vide* Section 66 of the Rules.)

FOREIGN BUILT SHIPS.—CLASSES F. (*Vide* page 39 of the Rules.)

The character 1 F denotes ships which have been found on survey to be of a superior description, fit for the conveyance of dry and perishable goods to and from all parts of the world.

The character 2 F denotes ships which, although not equal to the foregoing, have nevertheless been found on survey to be in a good and efficient condition, and fit for the conveyance of dry and perishable goods, on shorter voyages.

The character 3 F denotes ships which have been found on survey fit for the conveyance of cargoes not in their nature subject to sea damage.

The Figures under the Character denote the date when the Vessel was last surveyed.

When printed in Red (except in the case of Vessels classed A 1 in Red), they indicate that the survey has reference to the Stores only.

When a black line appears with a date under it in the twelfth column, thus 2,70
it indicates that, at the date stated, the Vessel, either from defect or non-compliance with the Rules, was not entitled to a Character in the Register Book.
